

SOCIETY WOMAN'S WORLD AND WORK

LILIAN CRAWFORD PERKINS

Like slender flames of snowy fire,
The breaths rise through gold green
haze;
On upper slopes the winds conspire
To rout the mist God's morning
gaze.

Till early gosses are tired,
Leaving the nodding pine tops red
Where eastern light has set them all
ashore.

But mine some pool beneath the
hills,
Where, questing sunbeams cannot
see—
Through which the hidden river
flows.

In half-tint pools of mystery,
And here, while men still sleep,
The wakeful, playful, trilling leap
Till the brown river smiles in glee.

Increasing exemption limit to \$100 a month, they pointed out that only the big operators would be subject to the levy.

A final favorable report on the measure will not be formally sought until Saturday.

Receiving the attack today on other business proposals, Senator Thompson, democratic of Colorado, informed congress and the public alike that what he termed their indifference to government finances.

A different view of the government at the end of this fiscal year will be taken, said Senator Bryan, who said that the Senate's indifference continues in the matter of swimming pools.

"The bill will be completed within 45 days and will be in full operation before July 4," Bryan said. "Early in 1921 a dance hall 160 by 120 feet will be built, the site used at present being only temporary."

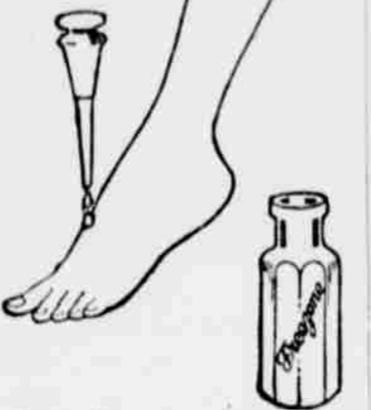

"Last week the Fuller pension bill increasing the payments to civil service pensioners was passed by the Senate, but the measure, many of us think, is indefensible, went through with 12 senators voting upon it. Defense appropriation bills have been passed; two more are preparing, and when the public voice makes itself heard, the Senate will no longer be an easy target for another series of them to emerge."

"That threat doubtless originates compared with the bonds proposals. The last scheme now resolved upon will cost the American people \$6,000,000,000. An organized and clamorous demand does to those who claim to be just."

"It sets a new precedent for the transfer of money from the pockets of one set of people to the pockets of another. The crushing burden can and will go on only one place—in the already bent backs of the American consumers."

The structure to be put up in 1921 will be made of concrete and steel, and will afford parking space for several hundred automobiles, being covered with gravel and that arrangements have been made for each car running over the Tulsa-Sapulpa turnpike to stop at the park which is about a quarter of a mile from the Red Fork entrance.

Picnic grounds are now available to the public free of charge. These grounds will be improved also, Bryan said. The amusement park tract includes 40 acres, most of which will be used for tennis courts, the intersection line running through the park.
